PAYMENT METHOD: We accept multiple forms of payment: credit card, ACH, wire transfer or check. Our preferred payment method is credit card. When paying monthly via credit card we require the setup of a recurring charge upon which your card will be charged in advance on the 1st day of the billing month.

Monthly payments must be made within 15 days of the start of your billing cycle. If your credit card declines you will be notified via email. You must provide updated payment information prior to the 15th of the month to avoid deactivation of your account. If your account is deactivated it will not be reactivated until payment for ALL past due charges are paid in full.

When paying by check, ACH or Wire you must pay in advance for 12 months at a time. You will receive an invoice at the beginning of each annual billing period and payment is due on the last day of the 1st month of that period. Add-on(s) may become disabled in your application(s) if your account is past due.

All setup charges are non-refundable.

DATA PROTECTION: Juiced Technologies provides add-ons for the Quick Base platform that perform read-only processing to the customer's application data tables typically via User Tokens (recommended) or via user id. The access granted to us is done by the customer and can be revoked at any time by the customer. Whenever our add-ons read data it is only for the time it takes to process and provide the outcome needed and it is NEVER stored within our server environment. For example when our add-on is running it is only resident in server memory until it completes and then it is unloaded and any and all data that was read is automatically discarded/purged.

NORMAL USE: Your subscription includes a predefined # of allowable transactions per month which varies per add-on. That number is specified above for each add-on listed in this Quote. If your 3 month transaction average exceeds the allowable # of monthly transactions for any add-on you subscribe too, your monthly fee may be adjusted accordingly on your next billing date. You may also receive a separate prorated invoice for the overage based upon the number of transactions and your billing cycle.

THIRD PARTY SERVICES: Juiced Technologies is not responsible for pricing related to the Quick Base platform itself as well as any 3rd Party Services that may be used in accordance with any add-on included in this Quote. The client is responsible for all licensing agreements and for setting up payment directly with those service providers. Juiced Technologies is not responsible for any price increase that may be incurred by the client for such services as it relates to the use of our add-on and those services together.

OTHER PROVISIONS: No terms or conditions stated in a Client purchase order or in any other Client order documentation shall be incorporated into or form any part of this Agreement, and all such terms or conditions shall be null and void. Client acknowledges and agrees that its agreement hereunder is not contingent upon the delivery of any future functionality or features not specified in this Agreement or dependent upon any oral or written, public or private comments made by Juiced Technologies with respect to future functionality or features.

CANCELLATION OF SERVICE: Your subscription is month-to-month and may be cancelled at any time. You must call or email us with your cancellation request at least 15 days prior to your next billing cycle so that ample time is provided to cancel your recurring credit card charge if applicable. No partial refunds will be issued once the credit card charge has been processed.

NOTE: if you cancel your subscription to Quick Base itself that **does not** automatically cancel your subscription to our Quick Base add-ons. We are a separate entity from Quick Base and are NOT notified by Quick Base when accounts are cancelled. Please make sure to cancel directly with Juiced Technologies if you decide to cancel your subscription to Quick Base in order to stop future recurring charges/invoices.

To pay via credit card, enter your credit card info using the following link. (Your credit card is NOT charged right away, we manually charge your card for the amount of this Quote and email you a receipt after you enter your info.)
