QuickBase
Solution Provider

Our Story

VeilSun is a business consulting and web platform firm specializing in Intuit's QuickBase online database. We combine sound business know-how, creativity, and QuickBase expertise to go beyond traditional consulting, providing powerful web-based solutions for a wide range of businesses.

VeilSun was formed with a deep passion for helping businesses solve complex problems quickly and cost-effectively using web-based technologies. To fulfill this passion, the two founding partners, James Cosman and Rich Crum, built a dream team of like-minded account managers, project managers, QuickBase developers, and web developers with a mission to be the best and create the most value for our clients.

From there, things took off. By 2013, VeilSun had built a core of great client partnerships which led to us being the **top-reviewed QuickBase Solution Provider**. Since then, we have served nearly 150 clients, averaging 3 new clients a month. We believe the core of our success is a focus on client relationships and a "business first" approach to technology development as outlined in our core values:

Practical
Innovation

Respect

Happiness

Integrity

Transparency

Mindfulness

Performance
Excellence

Industries We Serve

With over 350 projects under our belt, we have experience in almost every industry; however, we have very extensive experience in the following industries:

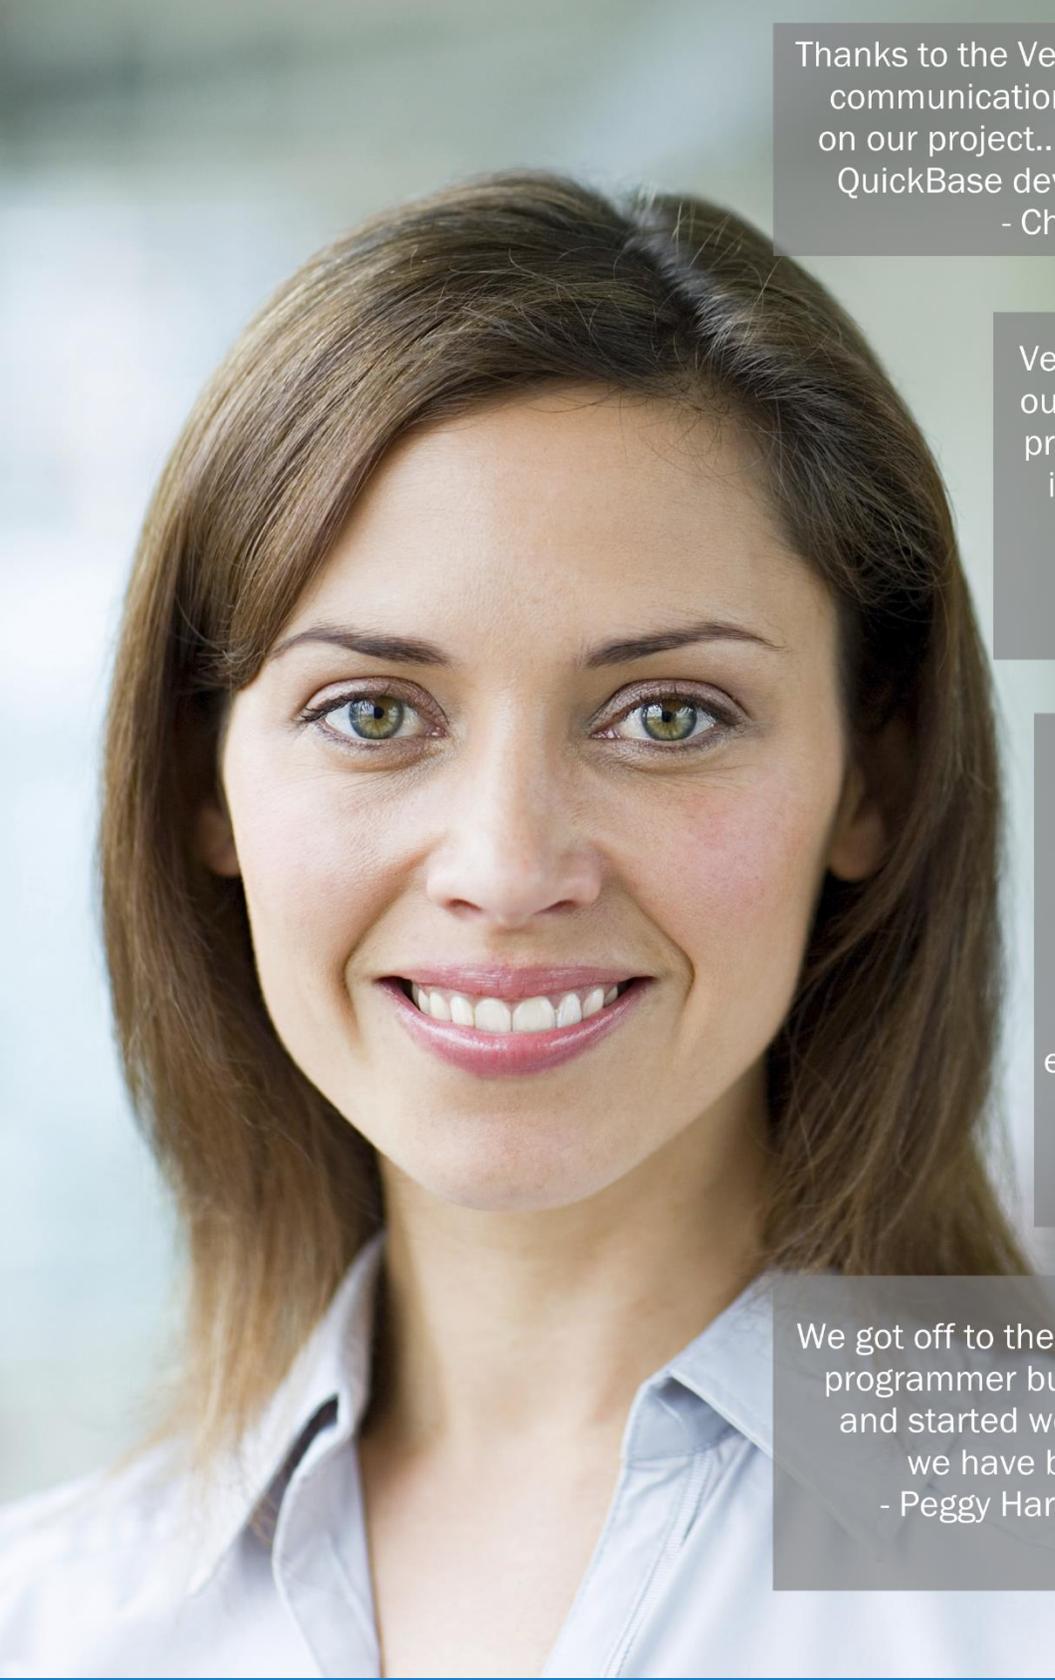

- Construction
- Solar
- Health Care
- Manufacturing
- Roofing
- Financial Services
- Telecom
- Real Estate
- Legal Services
- IT Services
- Retail
- Marketing
- Software Development
- Pharmaceutical
- Energy
- [And many more](#)

Typical Applications

QuickBase can be used to solve many different organizational issues for small and large businesses. VeilSun has helped companies in realizing the value of QuickBase in the following areas and many more:

- A/P Management
- A/R Management
- Approval Processes
- Assembly line management
- Budgeting
- Business Intelligence
- Case Management
- Cash Flow Management
- Commissions
- Compliance Management
- Content Management
- Contract management
- **CRM**
- Customer Portals
- Customer Satisfaction
- Document Management
- ERP
- **Executive Reporting**
- Expense Tracking
- HIPAA compliance
- **Human Resources**
- Inventory
- Invoice generation
- Issue Tracking
- **IT Project Management**
- IT Support
- Job Costing
- Legal
- Loan Origination
- Marketing Management
- Materials Tracking
- Medical Coding
- Order Management
- Pharma trial management
- Process Management
- Procurement
- Product Management
- **Professional Service Automation**
- **Project Management**
- Property Management
- Quoting
- Resource Management
- Revenue Forecasting
- SOX Compliance
- Strategic Objective Tracking
- **Supply Chain**
- Task Management
- Timesheets
- Training Management
- Vendor Management
- Work Order Management

VeilSun is the... Top Reviewed Solution Provider

Thanks to the VeilSun Team for great execution, communication, timeliness and partnership on our project... I highly recommend them for QuickBase development and maintenance!
- Christine Lane, Intuit

Veilsun was able to over-execute our expectations. We have some pretty lofty ideas and they made it easy to collaborate and get an excellent product.
- Patrick Maiorano, Blackhawk Network

We have invested in multiple software applications to try to remedy this problem with no success. After taking a final leap of faith into Quickbase, we were assigned Veilsun Inc. This company exceeded all of our expectations and continues to do so.
- Collin, Mosaic/Acosta

We got off to the wrong foot with the wrong programmer but once we found Veilsun and started work with Rich and Jason we have been so very happy.
- Peggy Harris, Redboard Circuits

Our QuickBase Services

Need a New App?

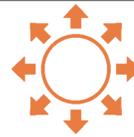

Design & Blueprint

Make sure your app meets your needs by designing your application right the first time

Development

Get your app built quickly, professionally, and with an eye for the future

Deployment

Roll your application out the right way to ensure adoption and happy users

Ongoing Support

Continually enhance your application at the speed of your evolving business

Already have an App?

QBCheckup

Is your app slow and clunky? Learn what can be done to improve its workflow, performance, and scalability

Re-Design

Is your app a mess? Clean up that mess, improve user experience, and ensure a great app for years to come

Optimization

Speed up your QuickBase app and get more done

Ongoing Support

Continually enhance your application at the speed of your evolving business

Advanced Technical Services

Integration

Integrate your QuickBase with your core business software and applications to improve workflow and reduce double-entry

Custom Interfaces

Custom interface development to improve data entry and user experience

Customer Portals

Make your customers an active part of your process with custom branded web-portals integrated with your app

Enterprise Services

Enterprise Design

Got lots of apps? Make them all work together to improve work efficiency and data availability

Roadmap

Manage the vision, growth, and ROI of your application(s) with purpose

Governance

Manage the changing needs of your business and users to ensure a highly valuable QuickBase environment

Consolidation

Got lots of apps that do the same thing? Realize the benefits of bringing them together

Our QuickBase Extensions

Most Popular

QScheduler

QScheduler is a drag-and-drop scheduling and calendar interface which integrates seamlessly with your existing QuickBase application. Perfect for companies who need to quickly and easily schedule their team. Works on a laptop and on all smart devices.

Workflow Automation

Project Builder

Build complex projects templates and populate them seamlessly into your projects

Task Board

Assign work to your team the easy way by dragging and dropping tasks

QTimesheets

Specialized timesheet interface for QuickBase

VeilChimp

Bi-Directional sync with MailChimp email marketing tool

Other Popular

Enterprise Data Management

Auto-archive and restore tools for enterprises with large data volume

FileDown+

Download and organize 1,000s of documents from QuickBase in just a few clicks

QB Tabs

Add tabs to any form in QuickBase

And more...

Visit www.veilsun.com

Our Custom Work

VeilSun does a lot of custom QuickBase and QuickBase-enabled interfaces built specifically for our clients' needs. Here are just a few screenshots of our 100s of custom implementations:

Route Planning

The screenshot shows a Google Maps interface with a route planned through Colorado. The route starts at 5pm in Fort Collins, goes to 11am in Denver, and ends at 3pm in Colorado Springs. Below the map is a schedule table for Wednesday, Jan 2, 2013.

| Wednesday 1/2 | |
|---------------|--|
| 9am | |
| 10am | |
| 11am | |
| 12pm | |
| 1pm | |
| 2pm | |
| 3pm | |
| 4pm | |

| Wednesday 1/2 | |
|---------------|---|
| 9am | 9:00 (unavailable) |
| 10am | |
| 11am | 11:00 10483 Franklin St Northglenn, CO 80233 |
| 12pm | |
| 1pm | |
| 2pm | |
| 3pm | 3:00 4116 Little Crown Ln Colorado Springs, CO 80906 |
| 4pm | |

Custom Integrations

The screenshot shows a web interface for integrating EagleView XML documents with RoofEEZ. The interface includes the EagleView Technologies logo, the RoofEEZ logo (with the tagline 'ROOFING MADE EASY'), and instructions for uploading XML files. There are buttons for 'Pick File', 'Process XML', and 'Cancel'.

Choose an EagleView XML document

EAGLEVIEW Technologies → **RoofEEZ**
ROOFING MADE EASY

Before you choose to "Pick File" below, make sure you have an XML file from EagleView that can be read. Once you have this specific file and know the location of the file on your computer or in your Drive, hit the "Pick File" button and either drag the file into the newly opened window OR hit the "Choose file" button to select it from your computer.

Pick File Or drop files here

Once you have returned to this screen and you can see the file queued in the dashed box above, click the "Process XML" button to upload the XML to the Measurement Tab for this Client. Once it is properly uploaded you will see notification below the button with the amount of records applied to the Client.

Process XML Cancel

Done

The screenshot shows a data synchronization progress screen. It features a purple flower icon, a progress bar, and a cartoon monkey carrying a blue bag. The text reads 'Please wait while we sync your data ...'.

Please wait while we sync your data ...
